Conservatory Values:

Our values are an outgrowth of our mission, and should guide not only communication, but also action.

Belonging: We strive to make all people feel valued, welcomed, and included.

Creativity: We encourage original thinking to solve problems and inspire growth.

Collaboration: We use partnership, teamwork and diverse perspectives to drive shared goals and collective success.

Stewardship: We practice responsible management and care to ensure sustainability and well-being.

The Brand Voice

The Franklin Park Conservatory and Botanical Gardens voice is an essential component of the brand.
The tone of this voice is lively, welcoming, and precise – never flowery.

- **Be visual.** We are a visual institution. Look for opportunities to say it in pictures. Check with Carly Young, Graphic Design and Brand Manager, to locate or request a photo.

- **Be real.** In most cases, real photos of the grounds, exhibits, facilities and events are more spectacular than any rendering or illustration.

- **Be active.** Focus on what visitors will do vs. what they will see: i.e. Pass under a canopy of tropical orchids and feel the warmth of a summer day in the starkness of January.

- **Be conversational:** How would you say it if someone walked into your office and asked? Text that reads like you're talking welcomes readers.

- **Be warm:** Aim for your text to reach its arms out and hug readers, even though we know it text can't technically do that. Yet. Use contracts, first person pronouns and informal versions of words: i.e. "will" vs. "shall".

- **Be crisp:** Use vivid, simple, effective communication. Visually and verbally, less is more.

The Brand Character

Character is the brand's defining behaviors. Like personality traits, the character often leads directly to brand guidelines, helping to shape identities and marks, visual language, and the brand's tone of voice. The following traits helped shape Franklin Park Conservatory and Botanical Gardens' brand identity.

Kinetic – full of movement and life
Accessible – welcoming to everyone and easy to reach
Immersive – enveloping every guest in the beauty of the natural world
Distinctive – uncommon, evocative

The Brand Architecture

When writing or speaking about any of the programs, always include a reference to the the brand, when the tie isn't obvious:

Yellow Page listing:
- Franklin Park Conservatory and Botanical Gardens' Botanica Gift Shop
- Franklin Park Conservatory and Botanical Gardens' Garden Café

Brochure copy (exhibit brochure):
While you are here, stop for lunch at the Garden Café.

Acceptable Second Reference:
The Conservatory

Franklin Park Conservatory and Botanical Gardens Name

Franklin Park Conservatory and Botanical Gardens name has heritage in the greater Columbus area that dates back to the late1800s. With a history that long, there is a lot of equity in the name “Franklin Park Conservatory.” But in the last two decades, the Conservatory experience has expanded dramatically, beginning with the building itself, but going far beyond. New additions include:

- Visitor Center
- Grand Atrium
- Lower Atrium
- John F. Wolfe Chihuly Resource Center
- Cardinal Health Gallery
- North Gallery
- South Gallery
- Emergence Center
- Botanica Gift Shop & Greenhouse
- Garden Café
- General: "biomes" not "rooms"
- North Conservatory
    - Himalayan Mountains
    - Tropical Rain Forest
    - Desert
- South Conservatory
    - Pacific Island Water Garden
- Hot Shop
- Dorothy M. Davis Showhouse
- John F. Wolfe Palm House
- The Palm House Gallery (area around stairwell in lower concourse)
- Turrell lighting installation
    - *Light Raiment II, 2008* James Turrell
- The Rooftops (when the two are referred to collectively)
    - Zen Terrace
    - The Grove
- The Ricochet Group Board Room
- The Worthington Industries Veridian
- Meeting Room A, Meeting Room B, Meeting Room C/D (not classrooms)
- Brides garden
- Wolfe Terrace
- Grand Mallway
- The Historic Carriage Path
- The Scotts Miracle-Gro Foundation Children's Garden
- Scotts Miracle-Gro Company Community Garden Campus
- AEP Education Pavilion
- Chase Community Garden Center
- Live Fire Cooking Theater
- Pollinators Garden
- Apiary
- Ohio Hybridiziers Historic Daylily Garden
- Crane Comifer and Ornamental Grass Collection
- Production Greenhouse
- The Wells Barn
- and More!

During the brand refresh, visitors and potential visitors told us that “Franklin Park Conservatory and Botanical Gardens” most accurately reflected our current offerings. It was not only the overwhelming choice, but also the perfect blend of preserving the brand equity in the Franklin Park Conservatory name while showing the increased breadth of our offerings.

About the Logo

The Franklin Park Conservatory and Botanical Gardens visual identity is the sum of many graphic elements. The core elements of the identity are called the foundation. When expressed consistently and within the stated standards, the foundation elements strengthen the Franklin Park Conservatory and Botanical Gardens brand.

These guidelines will offer guidance on the foundation elements of the identity including logos, lockups, size relationships and color.

Approved Logo

Logo Structure

The logo is the cornerstone of the Franklin Park Conservatory and Botanical Gardens visual brand identity. Its consistent application according to the following specifications is essential. The Franklin Park Conservatory and Botanical Gardens logo is the property of Franklin Park Conservatory and Botanical Gardens and must be used only in accordance with the following standards to maintain consistency. Use these approved guidelines exclusively.

Always use the approved, master art for the logo - **never recreate it yourself**.

The Franklin Park Conservatory and Botanical Gardens logo is the primary component of the Franklin Park Conservatory and Botanical Gardens brand identity. The logo is a combination of the “tree-man” graphic together with the trade name, “Franklin Park Conservatory and Botanical Gardens” word mark in a clear and memorable presentation.

With proper and prominent use, the Franklin Park Conservatory and Botanical Gardens logo can achieve a strength and permanence that will serve our organization well into the future. In the eyes of our stakeholders, the logo helps build awareness and recognition by standing out from the competition. This is why it is so crucial that we use our logo consistently and appropriately in all of our communications.

This logo is intended for use only on print ads, literature, broadcast applications, business papers (letterhead) and promotional materials. It may not be used on building signage, vehicles or any other application without advanced, written consent from Franklin Park Conservatory and Botanical Gardens. The brand is **Franklin Park Conservatory and Botanical Gardens**.

Clear Space (Protection Area)

Space around the logo is key to creating focus. The Franklin Park Conservatory and Botanical Gardens logo must always have sufficient “room to breathe”– thereby enabling it to be the focal point on all Franklin Park Conservatory and Botanical Gardens communications.

Situations may arise where surrounding our logo with generous amounts of clear space may not be feasible. When positioning our logo near text and/or image heavy applications, always maintain – at the very least – a minimum area of protection space. The minimum area of protection is based on the cap-height of the Franklin Park Conservatory and Botanical Garden word mark, as shown in the diagram here.

Protection area

Display the Franklin Park Conservatory and Botanical Garden logo prominently, keeping it isolated from all other words and designs. The protection area provided around the logo must never be less than the minimum space demonstrated here.

Minimum Sizes

The Franklin Park Conservatory and Botanical Gardens logo should own a prominent, substantial presence wherever it is used. The logo should never compete for visual attention with adjacent graphic elements.

Using common sizes across all our applications helps us to establish a strong, cohesive look throughout our communications. Establishing a minimum size ensures proper protection of the integrity of our logo.

Always scale the Franklin Park Conservatory and Botanical Gardens logo elements together as a unit – "tree-man" graphic and the Franklin Park Conservatory and Botanical Gardens word mark – to ensure that the approved proportions and relationship between these elements can always be maintained.

Minimum Size

Premium Items

Any application where space is at a premium

Sizes are measured horizontally from the lower left corner of the "F" to the outer right corner of the "Y".

The above examples illustrate common application sizes so you may visualize a point of reference regarding size. While enlarging the logo is not limited to the above sizes, the logo must not drop below the minimum standard shown.

Incorrect Usage

To legally protect the Franklin Park Conservatory and Botanical Gardens logo, we must not alter or distort it in any way. Changes, no matter how small, weaken our logo's protectability and its impact, and detract from the consistent image we want to project. Even well intentioned changes can have a negative impact. Illustrated here are common mistakes to avoid.

Do not change the size or position of the "tree-man" graphic and the Franklin Park Conservatory and Botanical Gardens lettermark

Do not use special effects like drop shadows with the logo

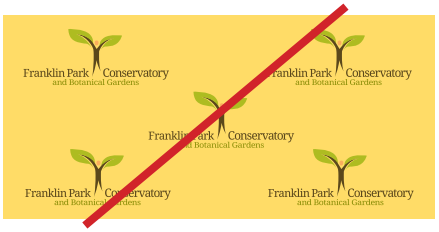

Do not reproduce the logo in un-authorized colors

Do not add elements to the logo

Do not use the logo as a headline or within body copy

Do not create a repeating pattern with the logo

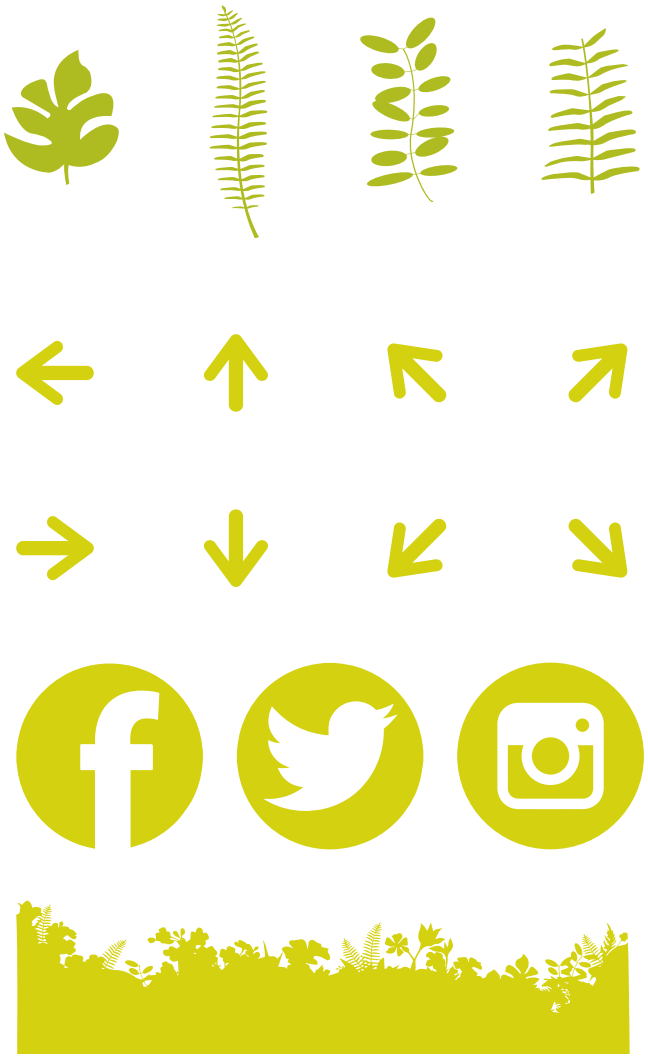

Do not place the full-color logo on solid backgrounds or photos (always use reversed logo)

Do not lock-up promotional slogans to the logo

Do not place the logo on distracting backgrounds

Imagery

Overview

The subject matter and style of our imagery is essential in supporting the visual representation of our brand. Stylistically, the imagery should feel naturally occuring and real-life—like a moment captured in time—with a sense of warmth and/or optimism. Natural lighting is crucial in conveying that our experiences relate to the natural world. Avoid artificial-feeling in the lighting of the image subject and, please, no extensive photo-retouching.

It **should not** feel staged, posed or fictional in any regard.

Specific examples should depict typical Conservatory activities such as viewing an exhibit, walking through lush greenery, smelling flowers, interacting with butterflies and hands-on gardening. In terms of focus, the subject matter should generally represent themes of diverse audiences, learning experiences, plant-life and respective animals in their native habitats. It is preferable to isolate a singular subject per image if possible.

There should be a clear, sharp focus on subject matter in the foreground and plenty of “breathing room”—clean, simple areas of uncluttered “quiet” space— in the background. This broad view of a non-detailed environment in the distance is referred to as “depth of field” and it is important in lending focus to the subject by serving as a contextual backdrop, as well as providing unobstructed areas for headlines or support copy to carry the story.

Whether commissioning photography or using stock images, it is important to select images that reflect our diverse audiences and experiences. Creatively cropping an image can add drama and emphasis from an uncropped image.

Typography

Typography is a significant component in creating a distinctive and memorable brand. The consistent use of fonts helps convey a strong brand. In addition, limiting the fonts used helps to maintain brand consistency throughout all communication materials from identity applications to marketing material. We have chosen Droid Serif to be our corporate typeface. It is a unique and contemporary typeface making it ideal for creating sophisticated-yet-interesting typographic arrangements where character and simplicity are required or desired. This stylized serif family will primarily be used as a support typeface in headlines and callout copy.

There are four approved styles of Droid Serif that can be used: **Droid Serif, Droid Serif Italic, Droid Serif Bold and Droid Serif Bold Italic.**

Approved Typeface

Droid Serif Regular Ab

Droid Serif Italic *Ab*

Droid Serif Bold **Ab**

Droid Serif Bold Italic ***Ab***

Alternate/Computer Typeface

Georgia Regular Ab

Georgia Italic *Ab*

Georgia Bold **Ab**

Georgia Bold Italic ***Ab***

Typography

The use of a secondary typeface helps create variety and hierarchy of information. Secondary typefaces can be used in addition to the primary typefaces on communication and marketing material. We have chosen Trade Gothic LT Std to be our secondary corporate typeface. It is a straightforward and non-idiosyncratic typeface, making it ideal for creating sophisticated typographic arrangements where clarity and simplicity are required. This highly adaptable family works equally well for text and display settings but will primarily be used as a support typeface in subheads and body copy. Trade Gothic LT Std provides a system of fonts that can be applied to a broad typographic spectrum from collateral material, newsletters and signs, to Web page design and advertising typography.
